

# **Salim Mohammed Saleh Azzan**

Email: eng.salim2017@gmail.com | Phone: +967712141872

## **Professional Summary**

Full-Stack Developer with expertise in frontend and backend development. Skilled in designing and building complete web applications and websites. Strong foundation in Python programming, data structures, and algorithms, with the ability to solve complex programming problems efficiently.

## **Technical Skills**

- Frontend: HTML, CSS, JavaScript, React
- Backend: Node.js, Express.js
- Databases: SQL
- Programming: Python (data structures, control flow, functions, modules)
- Core Concepts: Data structures, algorithms, software design

## **Education & Certifications**

Full-Stack Development Course

- Comprehensive training in building web applications from scratch
- Covered technologies: HTML, CSS, JavaScript, React, Node.js, Express.js, SQL
- Introduction to Python programming

## **Projects**

- Video Player using Kivy: Developed a Python application using the Kivy library to play video files in a continuous loop within the app window.
- YouTube Video Downloader: Built a Python project with Tkinter and Pytube allowing users to download videos in three formats: high resolution, low resolution, or audio-only.
